

3 ACES

A SUBSIDIARY OF SEABRIDGE GOLD INC.

Seabridge Gold (Yukon) Inc. is seeking a **Geophysical Technician** for our 3 Aces Project from June to July 2021. This team member will be responsible for assisting our geophysical contractor (Walcott Geophysics) and maintain a healthy and safe work environment. 3 Aces is a gold exploration project 241 km north of Watson Lake, YK.

This is a camp-based position, work rotations are typically 4 weeks in, 2 weeks out. The duration of the geophysical program is estimated to be 4-6 weeks.

Job Responsibilities include:

- Assisting geophysicists with collecting data along geophysical survey lines.
- Carrying receivers along survey traverses.
- Packing up and moving geophysical equipment from camp to site.

Job Requirements:

- Ability to carry 30-50lbs and walk 2-5km long traverses in varied terrain.
- Dedication to safety and experience working in the field.
- Demonstrated ability to work in a camp-based environment
- Legally entitled to work in Canada.

Email resumes to Susan Magun at the 3 Aces Watson Lake office (812A Adela Trail) or by email to susan@seabridgegold.com by **April 15th 2021**.
